PROFESSIONAL SUMMARY

Detail-oriented Software Engineer with 6 years of experience designing scalable web applications. Strong expertise in backend development, microservices architecture, and cloud computing with AWS and GCP. Adept at collaborating with cross-functional teams to deliver high-quality software products within tight deadlines.

PROFESSIONAL EXPERIENCE

Software Engineer | CodeWave Technologies | Melbourne, VIC | Mar 2021 – Present
• Designed and implemented RESTful APIs supporting 100K+ daily users. • Led migration of a monolithic application to microservices on AWS, reducing downtime by 40%. • Implemented security best practices including OAuth2 and JWT for user authentication. • Mentored junior developers and established coding guidelines.

Junior Software Developer | Digital Edge | Melbourne, VIC | Jan 2018 – Feb 2021
• Developed new features in Python/Django applications supporting e-commerce clients. • Integrated third-party APIs (Stripe, PayPal) for payment processing. • Built CI/CD pipelines with Jenkins and Docker, cutting release cycles from weekly to daily. • Collaborated with product managers to refine user stories and requirements.

EDUCATION

Bachelor of Computer Science | University of Melbourne | 2017 | Relevant Coursework: Data Structures, Cloud Computing, Software Engineering

KEY SKILLS

Languages: Python, Java, C++ | Frameworks: Django, Flask, React | Tools: Git, Docker, Kubernetes, AWS, GCP | Methodologies: Agile, Scrum, CI/CD

ACHIEVEMENTS

• Optimized backend services reducing API response times by 45%
• Led a team project that reduced AWS costs by 20% through resource optimization
• Implemented automated test suites achieving 85% code coverage
